Course Description:

This course is designed to introduce students to the fascinating world of Ukrainian culture, from the earliest records of Herodotus regarding the Scythians, through Kyivan Rus with its glittering Byzantine connections, to the present day.

Throughout, we will examine the many cultural forces that have helped to create Ukraine: history, literature, art, cinema, folklore, music, current events, modern pop culture, all the myriad facets of Ukrainian culture that shape modern Ukraine. And we'll explore how to read wax shapes (fortune-telling), what visual poetry means, the best (and most outrageous) contributions to contemporary music, cartoons and Ukrainian satire—these are a sampling of the course's moments. We will meet twice at the Indiana University Art Museum (IUAM) to view art related to Ukraine or created by Ukrainian artists. All required texts are in English. No knowledge of Ukrainian is required.
